

① V=1,285.7m³

② V=597.9m³

③ V=143.7m³

【ブロック個数算出方法】

TREND-POINTより設計面に対しての体積を算出 (空m³)

$$V = 1285.7 + 597.9 + 143.7 = 2027.3 \text{ m}^3$$

$$N = 2027.3 \times (1 - 0.6) / 3.355 = 242 \text{ 個}$$
